PROFESSIONAL EXPERIENCE

Product Quality Intern (End-of-Studies Internship)

OCP Group – Jorf Lasfar

📅 February 2026 – June 2026 (4 months) 📍 El Jadida

- Led a product quality improvement project using the Lean Six Sigma methodology, targeting product conformity, process stability and customer satisfaction.
- Analyzed product and process risks, identified critical factors, and assessed measurement system reliability (MSA/R&R) and process capability using Cp, Cpk, Pp and Ppk.
- Developed a digital interface to support the monitoring of critical raw-material parameters, improving process stability and production performance.
- Automated laboratory data collection using **Excel VBA** and developed a Power BI dashboard to centralize quality data, improve communication between Quality and Process teams and monitor key quality KPIs.
- Developed a Preventive Maintenance Plan (PMP) for vibrating screens to support equipment availability and reliability.

Organizational Management Intern

OCP Group – Jorf Lasfar

📅 Jul 2025 – Sep 2025 (2 months) 📍 El Jadida, Morocco

- Led a continuous improvement project using the DMAIC methodology to improve operational performance through cleaning process optimization.
- Analyzed and standardized operational activities through the development of procedures, work instructions and checklists, ensuring process control and operational compliance.
- Identified organizational gaps and defined improvement actions to strengthen process control, standardization and operational performance.
- Developed a digital interface to automate the monitoring and management of interventions and operators, improving activity tracking and traceability.
- Designed a Power BI dashboard to monitor operational KPIs, analyze performance gaps and support improvement action management.

After-Sales & Warranty Management Intern

Auto Hall

📅 Jul 2024 – Aug 2024 (2 months) 📍 Kenitra, Morocco

- Managed and monitored warranty and claim files, including complaint analysis and verification of repair orders, quotations, invoices and delivery documents.
- Controlled compliance of warranty cases with established procedures and identified discrepancies requiring corrective actions.

ACADEMIC PROJECTS

- **Industrial Digital Twin – Industry 4.0:** Developed an IIoT data pipeline for real-time data acquisition, transmission, storage, and visualization using MQTT, Node-RED, InfluxDB, and Grafana.
- **AI-Based Industrial Forecasting:** Developed time-series and machine learning models to forecast production trends and support data-driven operational decision-making.
- **Occupational Health and Safety:** Conducted an Occupational Risk Assessment (EvRP) and developed a preventive action plan to improve workplace safety.

ONLINE CERTIFICATIONS & TRAINING

Power BI Mastery Certified: Zero to Hero Data Skills

Agile Project Management (Google)

Lean Six Sigma Green Belt Training

LANGUAGES

English: Professional Proficiency • French: Fluent • Arabic: Native Language

ABOUT ME

Industrial & Logistics Engineer with a strong background in process optimization, continuous improvement, quality and supply chain. Rigorous, adaptable and data-driven, seeking my first CDI to contribute to operational excellence, flow optimization and industrial performance

SKILLS

Lean Six Sigma

Project Management

Continuous Improvement & Lean Manufacturing

Product & Process Quality Management

Inventory Management & Material Planning

Procurement & International Logistics

Smart Supply Chain & Industry 4.0

Preventive & Predictive Maintenance

Process Digitalization & Automation

Data Analysis & Data Visualization

SOFTWARE & TECHNICAL TOOLS

MS Office

Advanced Excel & VBA

Power BI

Minitab

MS Project

ERP Prelude 7

Python

MATLAB

Notion

Grafana

CATIA V5

EDUCATION

Engineering Cycle – Industrial & Logistics Engineering

National Higher School of Electricity and Mechanics (ENSEM)

📅 2023 – 2026

📍 Casablanca

Preparatory Classes for Engineering Schools (MP – Mathematics and Physics)

CPGE Moulay Idriss

📅 2021 – 2023

📍 Fez

Baccalaureate in Mathematical Sciences – A

Ibn Khaldoun High School

📅 2018 – 2021

📍 Karia Ba Mohamed
